Quality, Health, and Safety Policy 2025

With determination and energy, LogIC is entering 2025 with a clear ambition: To be an essential partner for its clients and a model of efficiency and exemplary behavior for its employees.

Our Commitments

To achieve our strategic objectives and meet the expectations of our stakeholders, we commit to:

- **Complying with all applicable requirements.**
- **Maintaining a skilled and united team**, where training, skill development, and collaborative spirit are at the heart of our practices.
- **Promoting innovation** by offering effective technical and organizational solutions to address current and future challenges.
- **Continuing our international expansion** by strengthening our position in global markets and showcasing our expertise.
- **Adopting a continuous improvement approach** to optimize our processes and ensure ever more efficient services.
- **Guaranteeing the quality of our services** by implementing rigorous controls and striving for excellence.
- **Maintaining a structured yet flexible organization**, fostering responsiveness and adaptability to market changes.
- **Ensuring financial stability** to guarantee the company's sustainability and the security of our employees.
- **Enhancing our brand image** by promoting our values and commitment to our clients and partners.
- **Developing strong partnership relationships with all our stakeholders**, based on trust and transparency.
- **Being exemplary in occupational health and safety risk prevention**, implementing effective preventive measures, and actively raising employee awareness.

Implementation and Monitoring

Our policy is based on the involvement of all our employees. It is implemented through concrete actions and measurable objectives.

We ensure its application by:

- *Developing a culture of prevention and shared responsibility.*
- *Closely monitoring our results and objectives to stay on the path of continuous improvement.*
- *Encouraging communication and active participation from our teams.*
- *Ensuring continuous alignment between our commitments and the expectations of our clients and partners.*

With passion and dedication, we will continue to make LogIC a benchmark company in quality, health, and safety while building a sustainable and prosperous future.

« As the founder and CEO of LOGIC, I am committed to providing the necessary means and resources to achieve our strategic objectives. »
